Sir:

In response to the Office Action mailed April 10, 2006 by the U.S. Patent and Trademark Office, claims 1-17 are pending in the application. Claims 1-6 are withdrawn from consideration. Applicants reserve the right to file a divisional drawn to the non-elected invention. I spoke with the Petitions Office and was informed this application became abandoned previously due to possible problems with the Russian address. The Office Action had not been received up to that time. I informed the client in Russia regarding the potential address problem based upon current PTO information and somehow the Russian post office was able to locate the Office Action.
